## Guidelines for Abstracts

### Research Abstracts

If you are submitting a research abstract, to be considered for a podium presentation, you must be sure to include:

1. Purpose, aims, hypotheses or research questions
2. Background and significance
3. Methods (design, sample characteristics, measures or instruments, procedures for data collection and data analysis)
4. Data findings, results and conclusions
5. Implications for practice and further study

### Clinical or Creative Project Abstracts

(QI/QM/PI/TQM, Program Evaluation, Research Utilization, Outcomes Measurement):

1. Purpose and/or objectives of the project
2. Background and significance
3. Description of methods or procedure
4. Evidence of results or outcomes of the project and how you measured the results—we want to see your data! Conclusions and evidence of impacts of the project on patient care quality, costs or outcomes.

### Abstract Format:

- Abstract should be **500 words maximum**
- Microsoft Word format – submit electronically please.
- **Use 12 point font, single-spaced, with 1 inch margins.**
- **DO NOT PLACE NAMES ON ABSTRACT PAGE** or other identifying material in the abstract.
- **NO graphs, tables or references please.** (may be added to final abstract).
- Abstract Submission form (or other page separate from the Abstract Page) must **list all authors' names** and include:
  - The presenter's name** with an asterisk
  - Full corresponding author contact information.**
- Select Option of Oral Presentation or Poster Presentation\* Podium presentations require completed work & must include any relevant data. Posters include pilot projects or projects still in progress or completed. Topics may relate to conducting research as well as implementing its results.

We have available the document:
